THE ULTRA DECK SCREEN

Three product, low cost screening

The Ultra Deck Deck screen is a compact screening unit, with features usually seen on larger machines.

The double deck 10ft x 4ft screen box and fines stockpile conveyor are all mounted within a self contained mobile chassis. Powered by a tier 4 Kubota Diesel engine, the Ultra Deck makes light work of top soil, sand, waste materials and wood chips

Specification

Deck	Double vibrating deck 4 ft x 10 ft, with loading pan, Side tensioned mesh
Power Plant	15 HP Kubota Tier 4 final
Drive system	Belt on flywheel, belt on fines conveyor gearbox
Belt	42 ins wide 8 ft high stockpile
Extras	Spill plates, mesh, road lights
